Objective

Aspiring **React Front-End Developer** with a solid foundation in front-end technologies, gained through a long time of dedicated self-study and hands-on projects. Eager to apply my skills to build dynamic, user-centric web applications. Looking to contribute to a forward-thinking tech company where I can grow as a developer and bring value through creative problem-solving and collaboration.

Experience

Project: Khososy – Course-Selling Website

- **Description:** Developed a full-stack course-selling website, "Khososy," using React as part of a code camp final project.
- **Key Responsibilities:**
 - Designed and implemented a responsive and dynamic user interface using React.
 - Created course browsing, purchasing, and user authentication features.
 - Integrated secure payment gateway for course purchases.
 - Implemented state management using Redux and optimized the application for performance.
- **Technologies:** React, Redux, JavaScript, CSS, Tailwind, NodeJs, ExpressJs, MongoDP, Payment API.
